Extract from "DOCK WORK – AFS 2001-9"

§12 A signaller shall attend every lifting device where any person stay within the lifting device working area, if supervision not can be achieved otherwise. Crew must not attend within the lifting device working area.

For grab discharge vessel must be suitable for such discharge and Uddevalla Hamnterminal AB does not take responsibility for damages caused by grabs or trim-trucks owing to uneven tank-tops, unprotected ladders, man-hole covers and their fastenings or similar.

Means of access to ships

There shall be safe means to access to ships, e.g. a gangway, an accomodation ladder or other similar arrangement. Extra care shall be taken if a ladder, rope ladder or the like has to be used temporarily. Unless obviously unnecessary the means of access to a ship shall be equipped with a safety net to prevent persons from falling between the side of the ship and the quayside at the lower end of the means of access.
